

TOOLS & TIPS

The Learning Site provides the pathway to all performance-based digital resources. With the Learning Site, continue teaching and learning without interruption. Set clear objectives and learning goals, explore all the differentiated activities for students and give timely and effective feedback online.

- Use Explorer® resources for assigning work including auto graded activities.
- Engage with online FlexText® for full access to all online content.
- Incorporate Discussion Forum activities for enhancing cultural classroom connections.
- Use the Classroom Forum to promote communication to:
 - ▶ Post reminders
 - ▶ Build an online community for students to share work and peer review
 - ▶ Foster online discussion threads on a variety of topics
- Self-assess progress with Can-Do statements through using the Language Portfolio.
- Assign activities, including Extension/ Supplementary and video bloggers, via Explorer®.
- Flip the classroom and continue teaching with the Observa/Découvrons videos.
- Assign Instructional Strategy videos for enhancing student growth across skills.
- Use the online calendar to remind students of upcoming assignments and deadlines.
- Continue providing feedback on student growth on language skills.
- Explore countries of focus using unit cultural openers by having students research topics of interest.
